To whom it may concern,

**Subject: Traceability of Tabor Electronics Laboratories**

I the undersigned declare that Tabor Electronics Measurement and Test Equipment are calibrated periodically by Rafael Calibration Laboratory, which is accredited by the Israel Laboratory Accreditation Authority (ISRAC) to ISO/IEC 17025:2005.

ISRAC has a Mutual Recognition Agreement (MRA) with the International Laboratory Accreditation Cooperation (ILAC) and all its regional organizations (e.g. APLAC, IAAC& EA). Therefore all the Certificates issued by Tabor Electronics are traceable to Rafael Calibration Laboratory, recognized by international parties and can be served as the evidence of traceability of results reported in there.

Best Regards,

Daniela Kruh  
Technical and Quality Manager  
Rafael Calibration Laboratories
